Through a carefully curated selection of quotations images and interviews Photographers on Photography reveals what matters most to fifty masters of photography. With enlightening text by Henry Carroll author of the internationally bestselling Read This If You Want To Take Great Photographs series you'll discover how the giants of the genre developed their distinctive visual styles and the core ideas that underpin their practice. com Interviews with Olivia Bee Esther Teichmann Alex Soth Ron Jude Broomberg Chanarin and further inspiration from: Eddie Adams Lisette Model Irving Penn Garry Winogrand Viviane Sassen Maisie Cousins Harley Weir Gillian Wearing Dorothea Lange Hellen Van Meene Man Ray David Hockney Ansel Adams Daido Moriyama Ralph Gibson Saul Leiter Todd Hido Richard Misrach Tacita Dean Amalia Ulman Alison Jackson Jason Fulford James Welling Paul Graham Laia Abril John Baldessari Lars Tunbjrk Richard Avedon Wendy Red Star Dana Lixenberg Edward Weston Roni Horn Vik Muniz Penelope Umbrico Ryuji Miyamoto Bill Henson Alvin Langdon Coburn Ishiuchi Miyako Leiko Shiga Joan Fontcuberta Charles Sheeler Brandon Lattu Nobuyoshi Araki Think and Shoot (History of Photography Pocket Guide Art History) I love the authors work. It's a lovely book and well worth your time :) 1786273187 I've been reading this whole series of books (I recommend you do too) and this is the most artistic and least technical of them. There are diverse opinions but all of them are thought provoking and an inspiration to any photographer going beyond the mere 'point and click' or narrow technical considerations of photo taking or making. 5 interviews 50 photos by 50 photographers with a short commentary by the author Important to be clear about what is being offered in this book: 50 photos each by a different photographer (from Fox Talbot on) with short commentaries by Henry Carroll on each one (and a one sentence quote from each). 1786273187 se nota que el libro fue hecho para vender las entrevistas o como se pueda llamar a los textos que se incluyen son superficiales y muy cortas no vale la pena realmente comprarlo. The insightful perspective from these influential artists will inspire your own photographic process and most importantly help determine what photography means to you, I haven't touched my Nikon 35mm since 2008 and Photographers on Photography: How the Masters See Think Shoot made me want to pick it up again. I don't know if there's any glowing praise I can give than that. Communication Arts This is a fantastic book that explores photography in a thoughtful way: We can all benefit from giving some thought as to why and how we photograph what we do. Technically before I understood the principles but Henry makes them understandable and enjoyable: I made some notes and followed a few accounts on Instagram I no doubt over time will learn from the influence of the photographers and artists I have chosen to follow, In this book Henry signposts the reader to further resources to help them develop a greater appreciation for the art of photography. And all of what it's about for many of the artists in this book. It covers a series of great photographers and explains how they approach the art of photography: It will not tell you what aperture to use for a portrait or whether to use a 50mm or an 85mm lens. It doesn't matter if you are using your phone to take photos or a Hasselblad: 1786273187 Esta muy padre el libro llego muy rápido y muy bien cuidado: 1786273187 I have read three others by the same author that have been instructional and really helpful but this one is very different and an excellent read, Different in that it reads like 40 or 50 brief interviews with accomplished or famous photographers with an accompanying photo illustrating their style or approach, It is really interesting to read the motives methods and thoughts of those who have achieved at the highest levels in the genre. I found it helpful to make me think about why I am composing specific images

and what i am trying to capture or convey: 1786273187 5 interviews 50 photos by 50 photographers with a short commentary by the author This is NOT photographers on photographers. This is Henry Carroll on 50 photographers illustrated by one photograph and one sentence from each photographer: Plus 5 interviews with contemporary photographers: Olivia Bee Esther Teichmann Alec Soth Ron Jude and 'Broomberg and Chanarin', They are less about the techniques or approaches of the various photographers than they are about the paradoxical nature of photography itself. A decent format but not quite what it says on the tin: Format is generally: Full page image big headline and half a page of text for each of the 50 photographers covered. A handful of longer interviews which are generally quite interesting: Some thought provoking material but not as practically helpful as Michael Freeman's Fifty Paths to Creative photography which starts with the style/ philosophy rather than the photographer[1]

And William Henry Fox Talbot. Fstoppers. He has opened up photography for me. This book presents lots of examples of creative work. That what I would say is part of what it's about. I would recommend this. To that end it is very interesting. This is about the image. The writing style is engaging and entertaining. I had heard of Alec Soth. Henry Carroll's commentaries are thoughtful and insightful. A good read. 1786273187 I have enjoyed this book. This creates a concise summary that is easy to dip into. A good quick read though. 1786273187
