

## How to Write a Lot: A Practical Guide to Productive Academic Writing By Paul J. Silvia

Good book Uganda Good Uganda The basic premise behind Paul Silvia's *How to Write a Lot* is if you want to write a lot without compromising your time develop a writing schedule stick to it keep track of your writing goals/progress and find a group/person to keep you accountable. Uganda All academics need to write but many struggle to finish their dissertations articles books or grant proposals Writing is hard work and can be difficult to wedge into a frenetic academic schedule How can we write it all while still having a life In this second edition of his popular guidebook Paul Silvia offers fresh advice to help you overcome barriers to writing and use your time productively After addressing some common excuses and bad habits he provides practical strategies to motivate students professors researchers and other academics to become better and prolific writers Silvia draws from his own experience in psychology to explain how to write submit and revise academic work from journal articles to books all without sacrificing evenings weekends and vacations The tips and strategies in this second edition have been updated to apply to academic writing in most disciplines Also new to this edition is a chapter on writing grant and fellowship proposals *How to Write a Lot: A Practical Guide to Productive Academic Writing* As a doctoral student whose full time job is writing I loved this book. If you are genuinely struggling with you're writing there are many other books on productivity and/or academic writing that will acknowledge how difficult it can be to improve these skills and provide you Uganda Bought book but Kindle crashes without allowing me to read it despite fully updated mac & kindle version. The only versions Uganda

Is a well-known author some of his books are a fascination for readers like in the *How to Write a Lot: A Practical Guide to Productive Academic Writing* book this is one of the most wanted Paul J Silvia author readers around the world. The author has a no nonsense approach to gadgets/gimmicks that distract us from writing, I also enjoyed the section about the most common excuses to delay writing. The key is the habit itself; repetition will yield a consistent writing stream. I recommend this book if you want to increase your writing output. Generating text and revising text are distinct parts of writing—don't do both at once. Most readers who come across your article will see only the title and abstract so make them count. To write good articles pick your journal first outline submit great first drafts and craft excellent resubmission letters. Productive writing involves harnessing the power of habit and habits come from repetition. El libro desmonta la idea de que solo debes escribir cuando te sientes “motivado” demostrando que en realidad la disciplina y una rutina de trabajo son métodos más eficaces. Si estás en busca de un método para ponerte a escribir o necesitas tips para crear el tuyo este pequeño libro te ayudará mucho. Aunque el autor es del área de Ciencias Sociales sus ideas pueden extrapolarse a otras áreas: Uganda Eigentlich ein cooles Buch aber gefühlt hätte ich mir das Lesen der 150 S: sparen können und einfach die Kernbotschaft umsetzen: Entwickle eine Schreibroutine an die du dich hältst selbst wenn es nur 1h pro Tag ist, Silvia keeps it funny and light but also provides no nonsense tips/strategies for forming writing habits that work: Uganda I finished reading this book nonstop and it made me think laugh and cry, It is a must read for anyone who is doing any sort of academic writing for living or whatsoever. Uganda Such a fun read that did motivate me to write : I will def re read this regularly to keep the perspective on writing and why I write Uganda Don't buy this book, And because I kept trying to fix the problem I missed the return period to instead get the paper copy. The book is brief but packed with practical advice. His snarky

remarks are funny and keep the vibe light. I am already practicing some of the tips he shared. My favorite quotes: Writing is a skill not a gift. Instead of finding time to write allot time to write. Writing breeds good ideas for writing. The world of peer reviewed journals isn't scary merely slow. Grant proposals are funded relatively rather than absolutely. Uganda Me gustó porque el autor va directo al grano. Es fácil de seguir y lo terminas muy rápido. Highly recommend. You deserve better than this book. I've spend 3 hours reloading & updating..
