\$60 for a beautiful damaged coffee table book this was sent damaged as there was nothing in the box that would have made these gouges in the cover: **EPub Remembering Great apes usmc** My only negative would be that it needs packaging better for transit Hardcover This book is image than substance in terms of proactive conservation messages, **Book Remembering Great apes together** It is a bit idealistic about how to save great apes from extinction and thugs at heartstrings than politics and strategies. **Remembering Great apes styles pocket** The images are stunning but the minimal text does not do justice to the photos, **Kindle Remembering Great apes vs** I personally think Joel Sartore's Photo Ark book is a much powerful conservation too to inspire people to action, **Book Remembering Great apeswap** Hardcover Another great purchase Hardcover Margot Raggett is a British wildlife photographer who fell in love with photographing African wildlife in her thirties: **Remembering Great apes 53** She gave up a lucrative career in PR to pursue that passion but the direction of her life was to take another turn: **PDF Remembering Great apes exam** She approached fellow wildlife photographers to collaborate on a book on elephants and Remembering Elephants was born. **Remembering Great Apes monde de guerre** All books are collaborations between many of the world's best wildlife photographers and are funded using crowd funding, **Book Remembering Great apes vs** Indeed anyone who has ever had the privilege of spending time with them will confirm the remarkable similarities and the deep and moving connection they felt: **Remembering Great Apes book author** And yet we humans the fifth great ape seem callously able to turn a blind eye to their destruction for the sake of our own rapacious greed, **EBook Remembering Great apes exam** It is a celebration of the beauty of these species and a cry from those who photograph and love them that things need to change before it is too late. Not so good. Too much white space around images and pages. Remembering Great Apes is time for us to say no no. We cannot we will not let this continue. We cannot we simply will not remember wildlife in pictures. Remembering Great Apes (Remembering Wildlife)
