

Harley Quinn, Vol. 1: Harley vs. Apokolips By Sam Humphries **Book Harley Quinn, Vol. 10** I love the visit to Apokalips and her first story being there really gives something different for long time readers.

Harley Quinn, Vol. 1hp motor

Because of Conner and Palmiotti she has also developed a nice and sustained moral core that has driven her series for many many issues and when this was the first thing that Humphries played with it irked me. **Harley Quinn, Vol. 1 book+directions** 9781401285074 Absolute fun 9781401285074 Although I'm familiar with the character from other titles and media.

Book Harley Quinn, Vol. 1997

Im normally all for Harley she's one of my all time favourite characters. **Book Harley Quinn, Vol. 123books** 1 as writer Sam Humphries takes charge! While on a tropical vacation Harley Quinn is kidnapped by two Female Furies from Apokolips--and they're making her an offer she can't refuse: join the Furies get super powers and do anything she wants! It's a sweet deal and all Harley has to do in return is hunt down rogue Fury Petite Tina. **Comics Harley Quinn, Vol. 1990** The bad news: Petite Tina is anything but petite! Harley Quinn's story starts a new era in this brand-new graphic novel! Writer Sam Humphries jumps behind the wheel beginning with this all-new Vol. **Harley Quinn, Vol. 1h nmr** Story: I will get this out of the way the first two issues of this book which is not written by Humphries (I forgot the author already) was painful to read it was janky and choppy and also the humor was so forced it made me roll my eyes all issue let's forget about those first two issues and dive right into the new writer Sam Humphries. **Book Harley Quinn, Vol. 1994** I don't know how funny and whimsical this book will be or will we go what Charles Soule did with Daredevil and make it grim dark with dark humor (which I don't want and need). **Harley quinn volkswagen** I love Harley cause her book is stupid and clever and all over the place and just plain fun a perfect tall drink of refreshing beer to wash away the grim dark of a lot of my other books. **PDF Harley Quinn, Vol. 123books** The story does start off a bit choppy and the first issue is kinda not the smoothest of books getting Harley to Apokalips and trying to set the readers to think that Harley no longer cares about people around her I didn't buy it the dialog and situations were forced for the sake of the story and it filled me with dread. **Book Harley Quinn, Vol. 1999** Then the rest of her journey there in Apokolips played out and there were some fun and laugh out loud moments (Granny Goodness' room comes to mind) but it's also full of some iffy jokes and some janky scene transitions. **Kindle Harley Quinn, Vol. 1080p** The other two issues were good for character development but the pacing and the structure of the story was also a bit janky and choppy (sense a trend?) and the new villain is rather ho hum. **Book Harley Quinn, Vol. 1998** Onward to the next book!*read individual issues* 9781401285074 Sort of a DC response to Marvel's Deadpool a funny profane violent character only Harley's not very funny here the art is too busy too manic art-by-committee so shifting around in quality though the last issue is darker and so has promise for something more than merely silly maybe. **Book Harley Quinn, Vol. 123books** I might have given this 3 stars but I have just read Harleen by Stjepan Šejić accomplished over years which was breathtakingly good one of the best superhero comics I have read in months this is my first exposure to Harley as the star of her own book. **Book Harley Quinn, Vol. 10** Sam Humphries seems to have taken some of his inspiration from Robert Loren Fleming and Keith Giffen's classic Ambush Bug--Jonni DC even shows up!--so HQ is in fine fourth-wall-breaking form. **Harley Quinn, Vol. 1hp** She stumbles into an adventure escapes death only because the would-be killer has a last minute change of heart--how convenient!--and triumphs via a ridiculously implausible plan that in real life should have taken days or at least many hours to set into motion,

Harley Quinn, Vol. 1hr

It's still a lot of artist change issue by issue but as I've said the art works for this series and it being fun really sets the tone for the series, **Harley Quinn, Vol. 1h nmr** I was wondering where Humphries would go with the series but instead of blowing everything up which some writers love to do (Soule on Daredevil comes to mind, **Kindle Harley Quinn, Vol. 1990** argh) he embraces what's come before and what makes Harley special at the moment while adding new pieces to the world that is Harley's little slice of the DCU: **Harley Quinn, Vol. 1hp motor** It's not quite canon it's not quite not canon but it's still fun. **Book Harley Quinn, Vol. 123books** Of course we get back to Harley being Harley in the end and that's a very good thing, **Book Harley Quinn, Vol. 123books** I also commend Humphries for keeping her family around and even adding to it cause her surrounding family has made her slice of the DCU unique and fun: **Harley quinn volume 2** All those characters have interesting personalities and can produce even more drama if used right: **Harley quinn volume 2** A lazy writer may have just come and blown everything to shreds and I hate writers like that. **Harley Quinn, Vol. 1hp motor** I will say the journey to Apokolips was solid character wise and using a lot of the Forth World archetypes and playing with them was fun, **Book Harley Quinn, Vol. 1990** I also liked how Harley broke the fourth wall.

PDF Harley Quinn, Vol. 123books

So two stars to the Big House production done in a matter of days, **Book Harley Quinn, Vol. 1996** Having Granny Goodness recruit Harley for the Female Furies was inspired: **Book Harley Quinn, Vol. 10** The New Gods are equal parts evil and over the top in a bizarre way, **Harley Quinn, Vol. 1h nmr** The two parter with Lord Death Man had its moments as well, **EBook Harley Quinn, Vol. 1995** The less said about Christopher Sebela's two parter the better. **Harley Quinn, Vol. 1 comics a-z** She seems to have had a weird personality transplant in this one I didn't find her at all funny. **Harley Quinn, Vol. 1hp motor** The writing was pretty disjointed and hard to follow at times, **Book Harley Quinn, Vol. 1996** Solid artwork on the cover variations but not one I would pick up again. **Harley Quinn, Vol. 1hp** 9781401285074 A fun read that explores the silly yet serious character in an interesting way, **Harley Quinn, Vol. 1 comics** There are some nice set ups for further books I just hope it leads to something substantial: **Book Harley Quinn, Vol. 123books** 9781401285074 As one of the previous reviewers briefly discussed Harley seems to have undergone a character change which I find rather drastic, **EPub Harley Quinn, Vol. 1996** The Conner/Palmiotti Harley cared more about her friends and fur-babies; she made it quite clear in the last Tieri issues that she wouldn't leave her family behind: **Harley quinn vol 1 hot in the city** Alter Harley (Old Lady Harley) would ditch the ones closest and dearest to her but not the H. **PDF Harley Quinn, Vol. 1998** So I see the Harleen in the Apokolips series as another alternate or possibly even the younger version of Old Lady H. **Harley Quinn, Vol. 1 kindle app** I'll probably re-read it since it took me a while to get through the first time around: **Book Harley Quinn, Vol. 1999** Even then I don't believe I'll be much of a Humphries Harley fan if the character traits flip-flop in such major ways, **Book Harley Quinn, Vol. 1995** 9781401285074 A fun book that is DC's response to Marvel's Deadpool. **Harley Quinn, Vol. 1hp** And blaming a collapsing floor for doing its one job made me laugh, **Harley Quinn, Vol. 1hr** what? A new era for Harley begins here in Harley Quinn Vol. **Harley Quinn, Vol. 1hp** World: The art is good it keeps the quality of the creative team before it it's a nice little playground for the story to play on, **Comics Harley Quinn, Vol. 1997** I've had a meh relationship with his writing on both Rebirth Nightwing and Green Lanterns and when they announced him for the book it scared me: **Harley Quinn, Vol. 1 epub.pub** So how does his first 5 issues read? It was aight but with potential. **Kindle Harley Quinn, Vol. 1984** Hopefully this is just growing pains and we can get back to the fun Harley stories soon. **Harley Quinn, Vol. 1 ebookers**

It's an aight start but not perfect but not the trainwreck it could have been that's for sure. **Harley Quinn, Vol. 1 booker** Characters: Harley is nuts and illogical and insane and all over the place and we love her for that: **Book Harley Quinn, Vol. 1990** The new villain back on earth is rather ho hum though and I hope we get more on him later. **Harley Quinn, Vol. 1hp** Not as bad as I thought it would be and a lot of potential here: **Harley quinn vol 1 hot in the city** Let'e hope the book keeps it's character focus and it will be fun, **Book Harley Quinn, Vol. 1995** There are three unchronological stories here set on Apokolips one of them decent but the writing seems uneven over all: **Book Harley Quinn, Vol. 10** It was heaps of fun!In the mood to get away from everything Harley is on vacation: **Book Harley Quinn, Vol. 1999** And then along comes a Boom Tube to take her to Apokolips where Granny Goodness wants her to join the Furies, **Book Harley Quinn, Vol. 1994** And then ...So this book reprints issues #43-49 of the comic book series: **Harley quinn volkswagen** It's Volume 1 because it's the beginning of Humphries' run on the title: **Book Harley Quinn, Vol. 1995** The book reprints issues 45-49 and then has 43 and 44 at the end. **Harley Quinn, Vol. 1 booker** This is actually a good thing because well they're pretty awful: **PDF Harley Quinn, Vol. 1990** If they appeared in sequence it's probable that no one would stick with the book long enough to reach the Humphries issues, **Book Harley Quinn, Vol. 1997** Harley's seeing these green phantom things that are never explained until near the end of the story--apparently they're a holdover from a previous story or two: **Harley Quinn, Vol. 1 comics kingdom** And then some associates of Harley's turn up after it's all over and reveal that the whole thing was a wild goose chase in the first place LOL, **Harley Quinn, Vol. 1 kindle unlimited** It's a sad excuse for a story though I'll concede that part of what makes it look so terrible is the entire rest of the book: **Book Harley Quinn, Vol. 1984** So what we have is two thirds of an excellent funny book and one third of well precisely the opposite: **Book Harley Quinn, Vol. 10** Recommended provided you skip right from issue 49 to the Variant Cover Gallery at the back. The world building here is pretty interesting. 9781401285074 A solid start for Sam Humphries run. Harley fits right in. I enjoyed how she kept poking fun at the New Gods. John Timms art is enjoyable. Alison Borges's art is a little too Simon Bisley for me. The last two issues are actually issues #43 and #44. I can see why they were hidden at the back. It was a struggle just to finish. Harley has a tendency to feel like filler. 9781401285074 This one just isn't for me. I feel asleep while reading it. Meh.Q. fans came to love in the previous volumes. Hammer Harleen was enjoyable and goofy. 9781401285074 You read that right. It's Harley Quinn vs. Apokolips. The whole. Entire. Planet. Wait. 1 jumping-on point. Collects Harley Quinn #43-49. Harley Quinn Vol. 1: Harley vs. ApokolipsSolid slightly janky but I can see the potential. However which she did at the start of the New52 run. So a bit further away than she'd planned then. It's a lovely blend of madcap action and humor. But he didn't actually start until #45. 43 and 44 are a mess. But it seems to take an hour or so tops. Yeah right. Four stars for Humphries two stars for 43 and 44. Call it three all together. Don't say I didn't warn you. 9781401285074
