5 Stars. Danielle also somehow comes with a trouble magnet. I so love Danielle. There seems to be two guys that could be it. Marlow or the guy who can see ghosts too. I'm torn between the two of them. I mean at least the guy who can see ghosts is alive. Can't wait for the newest one to come out soon. Bobbi Holmes Characters were lackluster. Lily is vapid and annoying. Danielle was over the top. I'm not certain there is a proofreader. The dialogue is flat. It's unrealistic. But the least enjoyable plot device is Earthbound Spirits. I wish the author would drop this particular plot line. Not the best one in the series. I really enjoyed the first 3. I am hopeful that the next book is better. This book was exactly what I hoped for. Speaking of which I hope everyone is having a good one. May next year treat you with much kindness. I can't wait for the next one to come out. Bobbi Holmes 3. This series seems to be the exception for me. Then a young stranded woman asks to stay. then the woman disappears
