

Kill Our Sins (Hidden Norfolk #3) By J.M. Dalgliesh I thought the author did an excellent job balancing these two critical aspects to the book - the mystery plot and the more personal aspects to the story as a greater whole. There was a well-woven interesting and well paced murder mystery plot but this is the first book where I felt genuinely interested and pleased with Tom's character and the growth/revelations that were shown to me as the reader. While in many ways a standard British style of police procedural plot I thought there were enough turns in the storyline and plenty of depth to the mystery of the victim to easily keep my attention. I found the working relationship between Tom and Tamara to be a little easier and smoother in this book - the previous book in the series in particular I had a lot of trouble with the fluctuating emotions and mixed signals so I was really pleased to find this had all seemed to sort itself out. The plot and the personal relationship between Tom and his girlfriend stand very well on their own in this book - and while I had no problems sorting through the characters of the small police unit I do feel readers will gain a deeper appreciation for their working relationship with the background in the previous stories. Dalgliesh What would you do to keep your past a secret? When the mutilated remains of a woman are retrieved by local fishermen it falls to DI Tom Janssen and his team to identify how she came to be in the water and what put her there. But who has the most to lose and what else are they willing to sacrifice in order to keep what they have? Is someone prepared to kill for their sins? Janssen must reveal and catch a killer without a conscience before they strike again. Set within the mysterious beauty of coastal Norfolk this fast-paced British detective novel is a dark murder mystery with moments of humour and a touch of romance one that will keep you guessing until the very end when the final shocking twist is revealed. Kill Our Sins is the third novel in a new series of thrillers from Amazon number one bestselling crime writer JM Dalgliesh the author of the Dark Yorkshire books. The medieval City of York is Caslin's home town and the plot lines take in some of the UK's most rugged and beautiful landscapes from the windswept North Sea coastline and across the stunning North York Moors. Penned in the style of the Crime Noir genre Caslin is a deep character as flawed as he is brilliant battling his own demons as much as those of Jason Dalgliesh was born on the south coast of England and grew up in Hampshire UK. This series has reached the point where the personal lives of the detectives have become as interesting as the cases they are working on, Dalgliesh Great Book! I have read all of JM Dalgliesh's books, Dalgliesh DI Tom Janssen was spending a rare day off with Alice and her eight-year-old daughter when he received a call from DCI Tamara Greave: They had found a body partially submerged in the local Norfolk waterways and she needed him to assist, As the investigation moved forward.

There were many links but not a lot of evidence, Wellesley House an old and now run-down children's home became part of the picture and the past beckoned with its insinuations and horrors, Tom and Tamara knew they had to solve this mystery quickly as the killer had no compunction at removing people who were in the way. Dalgliesh and it was every bit as good as the first two: In the dark beauty of a surrounding coastal Norfolk many things could and did happen; the author sets the story well paints vivid word pictures and plants plenty of twists. My only criticism is the raft of typos and editing errors in my copy - a good editor would have fixed this, Dalgliesh Kill Our Sins was the first JM Dalgliesh novel that I've not enjoyed, The plot was uninteresting the pace slow and all but the regular characters dull. The best part of it was the ongoing saga of the relationships involving the two principals, Dalgliesh has written so many gripping detective stories I shall move on to Hidden Norfolk #4 soon knowing that this was just a blip, Author of The Blue Pencil Liberating Belsen Two Families at War and The Summer of '39 all published by Sacristy Press, Dalgliesh The third book in the Hidden Norfolk Murder Mystery series is another winner with me. There are plenty of characters to keep the police team (and the reader) guessing who did what: That's just how I

prefer mysteries- no obvious murderer in the first chapter for me. If you like to think about the puzzle and maybe get surprised a time or two along the way this one will please you. I am very pleased to be able to recommend it to mystery lovers: Dalgliesh This for me was better than the first two books as we are now getting more about the Detectives lives making them far more interesting: Dalgliesh This is the third book in the "Hidden Norfolk" series featuring DI Tom Janssen and DCI Tamara Greave and I found it to be a solid addition. I was very pleased not just with the plot of the mystery itself but that this time I felt there was significant growth in Tom's character: We learn a bit about his past and there was a good amount of time spent showing the conflict and growth in Tom's personal relationship with his girlfriend. The book not only felt well balanced but as a result very satisfying: The mystery was one I personally found quite interesting - the murder of a woman with deep secrets hidden in her past and a delightfully complicated history. While I do feel readers can pick up this book and enjoy reading it as a stand alone story there are two previous installments in the series. I feel readers will find a deeper appreciation for the working cohesion between the police team unit if they've read the two prior stories though this isn't strictly necessary. An excellent read this British police procedural style story is a good book with complex characters a delightfully twisting plot and plenty of personal growth in the characters, Dalgliesh The best of the Hidden Norfolk murder mystery series: The plot keeps you guessing until the end which is one of the things I look for in a detective series. Joined on the case by his new permanent boss DCI Tamara Greave it remains to be proven if the woman's death was as a result of foul play or a tragic accident: The victim carried no means of identification was poorly dressed for the winter and horribly disfigured when pulled from the water, As the case progresses old ghosts return to haunt those living in the present, Matters thought settled a long time ago face intense scrutiny, When childhood friends begin to question one another suddenly the long forgotten past comes to the fore. No matter how much time passes nor how deep you bury them your sins will always return to haunt you: Perfect for fans of LJ Ross JD Kirk Angela Marsons Joy Ellis and Damien Boyd: Kill Our Sins (Hidden Norfolk #3)
