Good books
Great reads
Scott baker series great books kept me wanting more the standalone books were a good read too
Jay Nadal Excellent read
Absolutely brilliant from start to finish scary too: But would recommend to anyone defo worth 99p must read more of this author Jay Nadal OMGI love this book. It was so good and I really love the fact the book was so long, Jay Nadal Variety is the spice
I enjoyed the hard-boiled police procedurals even if the theme has suffered with over-exposure in recent years. The advantage of a collection such as this is the opportunity to get a flavour of everything the writer has to offer: It's like going to watch a covers band if you don't like the song they're playing you know there will be something different in another five minutes: This was value for money from the start the variety just added to the enjoyment. Jay Nadal This Book Has It ALL
This is absolutely a GREAT READ!! There is heart wrenching fear excitement hope and Joy in the pages of this very well written book[1]

Outstanding!!
The author does a fantastic job. Fast paced stories and all the characters work. I look forward to more of his stories. That just kept the fantastic read going. This is a must read. Give thumbs up to the Author. Jay Nadal.
