Maybe more than most. It doesn't look good. I don't want to spoil the book by telling any more. I love Blair Howard's books. Just trust me and read it. He thinks a dead man has set him up. Nobody is going to believe them. Characters are fleshed out. This is a must-read. My opinion is entirely my own. Everything calm and mild. Good read. Blair Howard has been writing these books for awhile now. Maybe he is tired of Harry. You will have to read the book to find out. End Game is a riveting continuation of a previous story. Fairly and honestly this was action-packed right through. This time though he may not make it out unscathed. Will Harry prove his innocence? You must read to find out. In fact I'm loving it. Life as they say is good. Hoodwinked is the latest in the series. In fact I'm loving it. Life as they say is good. Hoodwinked is the latest in the series. Kate Gazzara Saffron.
