Great book The Poetic Edda I love everything of this edition. **The Poetic Edda kindle unlimited** The translation is also well made and leads easily the reader to the Norse gods and heroes: **Poetic edda beard** Not decorative and not high quality paper but a lot better than a paperback. From the cover to characters dimension. Very recommend. The Poetic Edda A good quality book for the price. Good enough for reading on the train. The translation is easy to follow and enjoyable. The Poetic Edda An absolute must read. The Poetic Edda Nice looking book it looks very good. Well presented and easy to read. The Poetic Edda.
