

The mountains sing: Nguyen Phan Que Mai By Phan Que Mai Nguyen Inbunden Pocketbok Ljud-CD

This is a potted history of Vietnam in the twentieth century told through the eyes of the grandmother who lived through the French and Japanese occupations and the horrors of the war with America. It also brings to light the internal divisions within the country and how farmers were classified as rich and exploitative landowners who had to be eradicated at the beginning of the communist era. The second POV that we get is that of Huong (the granddaughter) as she lives and grows up in a war torn country waiting for her parents to return from the war and baring the repercussion of their decide to fight at the war front. Grandma Lan was presented as a strong woman who nothing seems to faze until you realise why; her experiences with the war that had tried to break her had forged her into a force field. It is really worth reading the only thing I didn't enjoy was that it kept jumping from period to period and back again and it's difficult to keep track of the characters and their back stories. With the epic sweep of Min Jin Lee's Pachinko and the haunting beauty of Khaled Hosseini's The Kite Runner The Mountains Sing tells the enveloping multigenerational tale of the Trần family intimate lyrical and bursting with life: It is really interesting to see the Vietnamese point of view of the Vietnam war and the year before and after. Huong's mother returning with PTSD her uncle without his legs her other uncle dead and others still missing. The writing is so good that you almost feel and hear the bombs and the silent howl of pain it leaves in its wake: Its so vivid rich in culture (language and tradition) I really loved the proverbs that were sprinkled all through the book. As this is a coming of age story (across multiple generations) we get to see them fall in love and marry have

children and share losses, Huong' relationship was really cute and Tam was just so cute; I was so invested in their happiness. I have probably given too many spoilers but I just encourage you to read this book: I learnt a lot about the war that I didn't know before, There was one thought that came to my mind about the Land Reform law and how it destroyed the lives of many, 'The best way to destroy a community is to divide them by riches: Then there will be no one left to protect the community' They acted out of greed and they destroyed themselves forgetting that the heavens hold record, Inbunden Pocketbok Ljud-CD This is quite a hard book to read as it tells a history that is filled with sadness and loss: It is hard to imagine people going through so much and still surviving, Inbunden Pocketbok Ljud-CD Dr Nguyễn Phan Quế Mai is an award winning writer in both Vietnamese and English. We read this for our bookclub. Fascinating to learn about life there. The family tree at the front is helpful. A map of Vietnam would also be of use. What a pointless cruel conflict. It told of the hardship endured by the ordinary people. The damage that was done done by the Americans. Inbunden Pocketbok Ljud-CD I really loved reading this book. I had all the emotions from sadness to happiness. A pillar of strength for her family. I like that we end on a good note. They both deserved it. The poor will rise up and stone the rich and powerful. It is worth reading though. She currently divides her time between Indonesia and Vietnam. Her journalism regularly appears in major Vietnamese newspapers.
